SUMMARY

Electrical & Automation Engineering undergraduate specializing in Industrial Automation & Robotics, with hands-on experience in PLC-based control systems, industrial electrical maintenance, pneumatics, and automation commissioning. Completed a 6-month Electrical Engineering Internship at Dankotuwa Porcelain PLC. Seeking a Junior Electrical / Automation Engineer role in industrial manufacturing or automation systems.

CORE TECHNICAL SKILLS

- PLC: Siemens S7-400, Siemens LOGO, Xinje PLC, Ladder Logic
- Automation: Sensors (inductive, photoelectric, proximity), actuators, conveyors
- Pneumatics: Valves, cylinders, circuit design (FluidSIM)
- Control: PID, temperature control
- Electrical: Motor control, panel wiring, troubleshooting, safety
- Embedded/IoT: Arduino UNO, Raspberry Pi (basic)

INDUSTRIAL EXPERIENCE

Electrical Engineering Intern — Dankotuwa Porcelain PLC, Sri Lanka

Jul 2025 – Jan 2026

- Assisted in maintenance and troubleshooting of industrial electrical systems in porcelain manufacturing lines.
- Supported PLC-based automation systems, including sensor integration, testing, and commissioning activities.
- Participated in automation upgrades and safety alarm system installations, improving fault detection and operational safety.
- Conducted electrical safety inspections and risk assessments in compliance with industrial standards.
- Prepared technical documentation, wiring records, and engineering logs for maintenance and automation projects.

KEY PROJECTS DURING INTERNSHIP

- Automated Line Drawing Machine – Siemens LOGO PLC, sensors, motors
- Panel Room & Preparation Area Alarm System – real-time fault detection
- Preparation System Automation – reduced human error, improved efficiency
- VFD Implementation for Casting Department Motors-EASYDRIVE

PROJECTS & PUBLICATION

- Smart Alcohol Detection and Engine Locking System – Conference Publication
- PLC-Based Product Sorting & Identification System
- Automated Apple Packing System (IOT Based)
- Industrial Pneumatic System Design
- PID-Based Temperature Control System for a Greenhouse

EDUCATION

Bachelor of Engineering Technology (Hons)

2022 – 2026

University of Kelaniya

Specialization: Industrial Automation & Robotics

- GPA: 3.72 / 4.00

G.C.E. Advanced Level (A/L)

2020

Henegama Central College

- Results: A / B / C

G.C.E. Ordinary Level (O/L)

2017

Henegama Central College

- Results: 6A, 1B, 2C, 1S

DAHAM PASAL(DHAMMA SCHOOL) FINAL EXAMINATION

2018

SIRI GNANABHIWANSCHA DAHAM PASALA

- Results: PASS

CERTIFICATIONS

- Getting Started with Siemens TIA Portal Programming – SolisPLC
- PLC & Automation Certificate – Sri Lanka Institute of Robotics (SLIR)
- Lean Six Sigma White Belt – FlowPlus
- Siemens PLC Training for Beginners-Automation Community
- Internet of Things (IoT) Online Course – MakerMentor
- PCB Basic Design Course – Altium Designer

PROFESSIONAL ACTIVITIES & VOLUNTEERING

Technical Team Member

LEGION Society – University of Kelaniya

- Contributed to technical and environmental initiatives
- Supported planning and execution of technical activities

Operations Team Member

Engineering Technology Students' Association (ETSA)

- Assisted in organizing engineering-related academic and professional events
- Collaborated with multidisciplinary student teams

Community Organizer

Green Club, Faculty of Computing & Technology

- Supported sustainability initiatives and environmental awareness activities within the faculty.

Member

FOSS Community – University of Kelaniya

- Exposure to open-source technologies and collaborative development culture
